The WFDC recharge invoices are coded directly here, but then journalled afterwards to all the places it should go with the information directly from WFDC Agresso so the original transactions details are included eg for R&m, Electricty, cleaning etc. It needs a zero budget as the actual budgets are held on R&M, Electricty etc.
K006	TOWN HALL MANAGEMENT	EXP	57015	EVENT EXPENDITURE	0	21,919	392	-22,311	#DIV/0!	21,919	where is the corresponding income K006 / 87105? So both these budgets being zero is fine as we only pay out the income received? Not sure of the difference between these 2 codes and I think there is confusion about which codes to use looking at last years actual expenditure and budgets. I think one is where we put the event on ourselves, and the other when the performer does. K006 57015 is matched by income on K006 87109. Last year had a budget of £14,000 for expenditure and £18,000 for income so projecting net of £4k. Actual exp was £8,696.50 and income £6,639.20 - so under achievement but the other codes were completely different to budget too????
K006	TOWN HALL MANAGEMENT	EXP	57016	HIRERS TICKET EXPENDITURE PHONOGRAPHIC	5,000	12,250	0	-7,250	245	12,250	Hirers Ticket Exp is matched with Hirer Ticket income on 87105.
